EMAIL

NAME OF STUDENT	TEACHING METHODS	RATING [Excellent – Good – Average]
Name: Address: Phone: Fax: Email:		{After you teach your students with each method, have them write in this space their evaluation of the method. Did they find they liked the method? Do they feel they learned better, retained more of the language, improved their pronunciation, accent, etc.? Would they rate the teaching technique as Excellent, Good or just average}
<p>INSTRUCTIONS:</p> <ul style="list-style-type: none"> The above is a suggested sample of how to present your empirical research; you may change it to suit your needs. You will need to do this empirical research with no less than six of your students, using no less than eight teaching methods. If you are not currently teaching, then you could use six friends, work mates or neighbors if necessary. (In the case of private students please enclose pictures of you teaching and group pictures of your students with you. Use one sheet per student. Send this along with all your documents to the University. Contact your mentor, if you have any questions or concerns on how to conduct this experiment (tutor@usat.ms).
